## *National Lawn & Garden Month*

April is the perfect time for gardeners and would-be gardeners to pick up a shovel and some seeds and kick-off a beautiful year of homegrown bounty.

Lawns and gardens go together. By spring we are all anxious to get outside and enjoy the nice weather and the rebirth of all things green. In most residential neighborhoods making the most out of your outdoor space means adapting to small spaces.

Flowers and greenery beautify the space but prepare for proper care. Certain plants require shade and others full sun. Read the care instructions for the flowers you're considering planting. Are they perennial or annual? Depending on the acidity of the soil, the amount of rain you receive and the zone where you live, certain plants considered perennial for one area will not thrive in another zone.

Whether you want to grow vegetable, fruit, flowers, houseplants, or anything in between, gardening celebrates a satisfying pastime that you will enjoy.

# Spring Gardening

## Word list:

ANNUALS	GARDENING	PERENNIALS	SUNLIGHT
BLOOM	GREENHOUSE	PETUNIA	TRANSPLANT

### **Emergency Preparedness**

Here in California we are no strangers to the chance of wildfires. There are many fire safety tips posted online by CAL FIRE at [fire.ca.gov](http://fire.ca.gov).

One of the best things you can do is make a plan, make an emergency kit and keep informed. Don't know what to put in your kit? Everyone has different needs, but some good things to remember are important documents, prescription medications, eyeglasses, and special items for infants and pets, along with three days worth of food and water.

***Don't forget to check batteries  
and test your smoke detector!***
